No. 1.

TELEGRAPHIC.

REGINA, October 30.

The assembly opened yesterday at 3:30 p.m. The speeches were long and dull and were printed in English and French but read only in English, and contained congratulations on the abundant harvest; traffic extension, etc. Immigration will be dealt with and statistics will be submitted combatting assertions that crime is on the increase. Gophers have been attacked in every possible way. The foundation of parliamentary library has been laid. Forty-eight immigration bases have been granted. The prairie fires ordinance has been widely circulated. Thanks are tendered the police for efforts to suppress fires and liquor traffic. Schools are being conducted upon the whole in a very satisfactory manner showing an increase during the year of thirty-one schools, forty-one teachers and 824 pupils. Amendments to school ordinances have been presented by the board of trustees. A bill has been passed by agricultural societies and other organizations. Requests for seed grain have been very few. Public works expenditure has been largely increased. Some districts have not expended all their grants, and show appropriations in excess of expenditure. Reports on well sinking will show that of one hundred and forty-four tests, fifty-eight were successful. A statement of territorial receipts and expenditures will be submitted and estimates for next year prepared with assistance of advisory council. Brett moved vote of thanks. Haultain moved in amendment that speech be considered. Brett said there was nothing in it to consider. Amendment carried on a vote of thirteen. Plaxton of Prince Albert had joined the majority. Lineman of the old thirteen had not yet arrived. The assembly will ignore the advisory council as such, but will put business of session through as quickly as possible.

CONCERT.

A very successful entertainment was held at Fort Saskatchewan on Friday evening the 24th October. The following programs were rendered:

Instrumental, Clayton's Grand March, Mrs. Walker.

Song, Only a face at the Window, Mr. Cassatt.

Encore, I love my love

Recitation, McLean's revenge, Miss Munro.

Humorous reading, Mr. Moncrieff.

Song, Three sailor boys, J. R. Michael.

Recitation, The life boat, Rev. Mr. Chastuktur.

Scottish song, The Monarch of the Marlin.

Encore, Gently down the stream, J. R. Michael.

Instrumental march, J. R. Michael.

Recitation, How he saved St. Michael's, Mr. McQueen.

"God Save the Queen." ***

Guy C. Phinney, an old time resident of British Columbia, and now one of the influential citizens of Seattle, in declining the Democratic nomination for senator, concludes his letter: "My reputation now is fair, and I hope with some interest in the future. G. C. Phinney is a pretty good fellow; the more we know of him the better we like him. But before the campaign was ended, if carried on as was the last disgraceful city campaign, these Seattle people would have been compelled to make a horse thist and my grandfather was hanged for murder. There would be six dead Seattle editors, and I would be in penitentiary instead of in the senate. Those with many other interests would constrain me from accepting the nomination for senator."

The herd of seventy buffaloes which have been preserved in the Yellowstone National Park have escaped from there and are being searched for in Wyoming. They are stated to be in the north near the wild buffalo range in the country, and great fears are entertained lest they should be killed by ranchers or others. The United States government has asked the State authorities of Wyoming to take steps to find them and drive them back to the park.

The threatened strike of the coal miners employed in the Cedar Mountain, Black Diamond, Newcastle and Gilman mines, at Seattle, has been averted. The men asked for an increase of 15 per cent. on their wages, and they were not able to get it. The miners' pay at the old rate. On Friday their demands was granted. In the four mines mentioned about eleven hundred men are engaged.

LOCAL.

No passengers on Monday's stage.

E. Haymer received a load of freight this week.

D. McLeod left for the end of the grade on Sunday.

Thos. Taylor of H. B. Coy, Lac Ste. Anne was in town this week.

John and E. Angle left on Wednesday for Athabasca Landing.

A. E. Johnstone, forest ranger, returned from the south on Wednesday.

The grading is pretty well completed between Blid Man and Barrette.

Meissner, Headle and Munday commercial travellers left for the south on Sunday.

Posters are up in town calling for tenders for the erection of land and registration offices.

J. C. Nelson, D. L. S. has finished work on the Indian reserve and started south on the 23rd inst.

Frost & Co.'s grist mill started running on Monday. Considerable wheat is already coming in.

J. Brown, A. Coghill and C. Fraser returned on Monday from a shooting excursion to Cooking Lake.

The annual Thanksgiving has been observed as a day of general Thanksgiving throughout Canada.

A Macdonald & Goertt intend moving into the premises lately occupied by Smith & Peacock and are having the necessary improvements and alterations made.

McLeod, C. E. was working near Beaumont place at the north end of Boggy plain when the stage passed down and may be expected to reach Edmonton in about a week.

Curling enthusiasts are already commencing to discuss their favorite game. Bins are being chosen and everything being put in order for a start as soon as the weather permits.

Grip for October 18th contains two capital cartoons from the pen of J. W. Bergoff, one lay satire on Uncle Sam, and the other on the situation on the chances of a general election.

The Chicago Graphic for October 18th contains numerous portraits of well known public men; also views during the revolution in Switzerland; the Paris International Fair recently burnt. A fine picture "Monk and Acolyte" from a painting by Rousseau.

Malcolm, McLeod's thrasher has been at work for the last couple of weeks.

He repairs the oats and barley threshed to date, and the grain is being put up in bags as much as possible. Nothing seems to be known about the reported change of ownership and crossing at Red Deer.

Railway work was going ahead briskly when the stage passed on the road into Edmonton. Trees had been laid across the road, and the grading was being pushed as much as possible. Nothing seems to be known about the reported change of ownership and crossing at Red Deer.

The Dunilon Illustrated for October 11th contains the following engravings: View of St. John's, Quebec, the hunting club at the St. Louis tournament, Truro, N. S.; Quebec; views at Niagara, Ontario; Battledore cricket club; Scenes at Ghamby, Quebec; British Columbian scenery, etc.

The board of trade have sent a fine collection of grain samples to Mr. L. A. Hamilton, of the firm of McLean & Co. The samples were similar to those supplied R. McKernan, with the addition of a sample of R. McKernan.

The placing of the products of this district before the people from whom we expect to receive the early market news is an important matter and too much attention cannot be paid to it. The board of trade deserves great credit for what they have done in this line.

R. McKernan left on Monday on a visit to Ontario taking with him samples of grain in the state where the loss of trade has been located and had neatly arranged in a case in the most convenient form possible for exhibition. The samples comprised Lodging, Genesee Club, Red Eye Club, White Russian and American. He will be back in time for the opening of the new session.

The straw in all these samples was over five feet in length and the grain of fair quality and considering the wet season we have had is an exhibit the district may well be proud of.

He is to return to the city on November 1st to receive his reward.

M. C. McLean intends to cover a good deal of ground before his return and his trip cannot fail to produce most beneficial results.

Wm. Clark of Bettineau, North Dakota, arrived from Calgary on Wednesday. Mr. Clark states that the reports received here from time to time about the state of affairs in Dakota are in no way exaggerated and that great distress exists there. Many favorable reports have been circulated about the Edmonton district by those who have already visited it and there is every reason to believe that large numbers will winter in the spring for this and other parts in Northern West. The C. P. R. are doing all in their power to assist those who desire to settle in this country by issuing tickets at a low rate to encourage people to come up to a location, and in the event of his taking up land in any part of Manitoba or the Northwest, the price of such ticket is refunded to him on his producing certificates to that effect. Clark's intentions are to go to the country and winter there and that even he will bring in his family from Dakota this fall.

A Sunday school convention for the Northwest Territories, under the auspices of the Assiniboin Sunday school association will be held at Revelstoke, Wednesday and Thursday November 26th and 27th, 1890. Reduced fares on C. P. R. are being arranged for.

The telegraph office at Prince Albert, Batoche and St. Laurent have been closed as government offices, and will hereafter be operated as part of the C. P. R. telegraph system.

J. H. Holman and W. Heffernan commercial travellers representing Messrs. H. Shorey & Co. and Jas. O'Brien & Co. arrived in town on Tuesday.

The Sunday office hour in the telegraph office, which up to the present has been from two to three p.m. is now changed to from 9:15 to 10:15 a.m.

Rev. Dr. Newton returned from Red Deer on Thursday.

Beautiful weather this week.

EDMONTON BULLETIN, NOV. 1, 1890.

VOLUME XII.

With this issue the BULLETIN begins its twelfth volume. There is every assurance that the year entered upon will see a greater change in the circumstances of the town and district of Edmonton than has occurred in all the ten preceding years during which this paper has been published. In this year those who have labored so earnestly, so patiently and so long to establish civilization and create material prosperity in this distant corner of the Northwest and of Canada may expect to see a result of their labor in the advent of the railway, and to reap substantial advantages therefrom. True, they are not building the railway, nor is it being built for their special accommodation or on their special account. It is being built because its promoters believe that the district is worth it; that in the productiveness of the soil and the wealth of natural resources they have a security for their investment of the necessary millions. They are satisfied that with the opportunity for utilizing this productiveness of the soil and these natural resources which the railway will afford, thousands and tens of thousands of settlers will come in, in the profitable results of whose labor the railway company will duly share. The part played by the present population of the town and district in this connection is that their judgment led them years ago to select this region as the choicest part of the Northwest; their enterprise caused them to travel hundreds of miles beyond any other settlement—and as many hundreds of miles further away from the protection of central authority and from the appliances of civilization—in order to reach the place that suited them; their energy and industry caused them to make the first experiments in grain growing, stock raising, lumbering, coal mining, gold washing, etc.; their perseverance even under most trying circumstances established the value of the country in these particulars so thoroughly that capital which a few years ago did not have been secured for investment on any terms in now easily procurable in any required amount, and consequently the railway is being built. While great credit is due to the government which assists and the capitalists who invest in the Calgary & Edmonton road, the government would not have assisted and the capitalists would not have invested. If the exertions and perseverance and success of the present settlers had not proven beyond doubt that the enterprise was worthy of assistance and the investment had fair assurance of yielding a reasonable profit; therefore they have a good right to a fair share of the credit, which is so justly due all round, in helping to fight the hard and sometimes almost hopeless battle of the last ten years the BULLETIN claims to have done its part. Its business has been on the one hand to inform and encourage the settler and on the other to place the attractions of the district and the success of its people as prominently and favorably before the outside world as possible. To do this successfully it was necessary to produce a paper which would be interesting to people at home and considered reliable by those abroad. This is the standard which the BULLETIN has endeavored to live up to, the line which it set out to follow. In following out these lines the BULLETIN's ambition has been to give fair value for the support which it has received.

While we of Edmonton have reason to be satisfied with the past, and hopeful for the future, we will do well to remember that a time of change is a time of danger. That the tide of material progress which is now rising around us will either carry us on its crest or overwhelm us as we take, or fail to take, due advantage of it. We have not yet secured prosperity. It is only the opportunity to secure it which is now about to be afforded. At this most critical time the BULLETIN will

be found, as always, advocating to the best of its ability the interests of those with whom it has been identified for so long, and in order that it may be able to do so it asks for a contamination of the material as well as moral support which has been accorded it in the past, proportionate to the gravity of the occasion and the weight of the interests involved.

The Calgary Herald of October 22nd contains the report of a meeting held on 21st instant to consider the question of the future of Alberta. Senator Lougheed took the chair and the various questions brought up were thoroughly discussed. Interest centring mainly on the point as to whether Alberta should become a new territory or province. In the opinion of the meeting this was desirable and a committee was formed to enter into correspondence with all other centres of Alberta and Western Assiniboa as to their views on the subject and taking the necessary steps to call a convention. At the meeting of the committee appointed on Monday evening to forward the movement to secure the establishing of Alberta under a separate legislature, it was decided to bring about a meeting between committee and the Alberta members of the legislative assembly. Messrs. Oliver and Wilson are expected on Monday and the Mayor, as chairman of the committee has communicated with them and with Messrs. Hauntall, Brett, Tweed and the local M. L. A.'s to secure a joint meeting and consultation while the Edmonton men are in town.

The department of public works calls for tenders for the erection of a land and registry office here. Plans and specifications of two buildings are shown, one of wood and the other of brick, with offices for the land, registry and timber department. It is evident that tenders from this district are not desired, as in order to get a tender Ottawa by the 12th of November, the date up to which they are received, it would have to leave Edmonton on the 30th of October. This would leave intending tenderers just two days from the time the posters advertising the matter appeared. It would be almost impossible for a contractor anywhere else tender under the specifications shown, unless the building materials produced here were first approved by the government architect. No information is supplied as to when the building is to be completed, or where it is to be built, both of which would be an item of considerable importance to any one undertaking the work. This however does not affect the question that such a building here is an imperative necessity and it is to be hoped that the government will not longer delay in a work which the people of Edmonton are fairly entitled to. There seems no plausible reason why such a delay should occur as the appropriations have been made, and the early location of the railway to this point should do away with the only objection that could possibly have existed in the past.

ROYAL MAIL AND STAGE LINE making weekly trips between Calgary and Edmonton. Leaves Calgary every Thursday day and arrives at Edmonton with the train which leaves Winnipeg on the preceding Monday morning, and arrives at Edmonton on the following Monday evening. FALL MEETING F. S. R. ASSOCIATION.

The meeting opened on Thursday morning the 23rd instant at 9 a.m., the weather was good, and the scores made by the marksmen were excellent, in fact anything under an average of 700, was of little account. The opening ceremony was performed by the president's wife, Mrs. H. H. Mennie, who scored the usual bullseye. The Patron's match was commenced immediately after. As before mentioned the results were excellent, but Mr. G. Ross topped the others to win on a possible of 400 yards, in the Honorary Officers match, A. R. Lang won the Aggregate with a score of 258 out of 330 points, only eight points under the limit for four matches, and which was a record, if ever, equalled.
